

Quick Overview

BX Lockers

August 2023

WELCOME TO OUR WORLD

Staverton has a longstanding history in office furniture design. We are recognised for bringing form, function and flexibility together without compromise. By involving our clients at every stage of the work process, we find –together– the right solution for their specific needs.

British and proud, we have a manufacturing facility in South Yorkshire and a showroom in Clerkenwell, London. With the latest BAZ processing machinery recently installed, the factory has more than 38,000 sq ft of space for manufacture and assembly and ample room for our design team to turn client requirements into fully developed designs.

Staverton's skilled team of professionals is committed to delivering the highest quality requirements: our products are designed to achieve FIRA's gold standard, the world's leading independent furniture testing centre. Our bespoke approach, innovative design and collaborative method have earned us a name as a responsible and reliable award-winning British manufacturer.

We comply with all industry regulations, including the supply of responsibly sourced wood, on-site personnel safety and conduct, quality control, and adherence to management standards such as ISO 9001, ISO 14001, BSI Membership, Safe Contractor Certificate, FIRA Gold Certificate, FISP Membership and FSC Certificate.

The mark of responsible forestry

POSITIVE CHANGE

We need to be the change we want to see. Leading by example while learning from others is the best way to drive change.

Business as usual is no longer enough. Nor is merely complying with regulations. We must do more than is expected of us. We need to improve each day. We need to understand our whole impact on the world. And we need to work together to ensure that we learn from each other and drive change.

There is an onus on us not just as manufacturers and designers of products but as individuals. Sustainability can be designed into systems and products, but the real change we need to see is in our attitudes and behaviours. We are all in this together and we all have a role to play.

[Join Us](#)

Respect for the environment is in Staverton's DNA. We care for our setting by creating sustainable, environmentally friendly products.

BX

Meeting the storage needs of your agile workforce.

BX is designed for the agile, ever-changing workplace. It is our most customisable range of smart lockers yet.

Inspire Creativity

Who says storage has to be boring? With BX, your storage can be as unique as your company and help to create a vibrant workspace.

Business information and personal items – they're more secure than ever. Whatever contents you want to protect, we've got a security option for that.

Integrated Drawers

Effective storage is easy to access. You can switch the bottom locker for an integrated drawer to minimise bending and make lockers accessible for all abilities.

Customise your colour and tailor your size to the needs of your office and team, easily.

Feel the difference by using BX's keyless lock solution, incorporating keypad, RFID and complete wired solutions, without the hassle of changing batteries. And, as facility managers can monitor locker usage, you can understand people's behaviours and personal storage needs as you go.

Planter Boxes

Bring the outside in and incorporate biophilia into your office with our planter units. The addition of plants helps to maximise space and provide extra visual interest.

Drawer Handles

Check out our assortment of distinctive and customisable options for bottom drawer handles.

Identification

Make lockers easy to identify with numbered disks or opt for the personal touch with ID holders.

Agile Work Environments

Even the most dynamic working environment still require a facility to keep belongings and confidential documents secure. Workers also want a space they can call their own.

Decorative Panelling

Customise your storage with our easy-add decor top panels and full exterior cladding. Why not switch up your colours or use the same throughout for a seamless finish.
